LEADING AUTOMOTIVE APPRENTICE EMPLOYER

VACC
Automotive
Apprenticeships

Get with **the program**

VACC Automotive Apprenticeships seeks to employ bright students, capable of meeting the technologically advanced demands of today's automotive industry.

In return, VACC Automotive Apprenticeships provides a smooth pathway for students wanting to enter the workforce. We recruit the best candidates and match them to a workshop, pay for the necessary medical examination, conduct an induction program, provide an introduction to the host and place them on the VACC payroll.

Apprentices also attend VACC's award-winning Life Skills Program.

We're in it for the long haul, so it doesn't end there. Trade-qualified field supervisors regularly visit apprentices in the workplace to provide

ongoing mentoring and support, while engaging with business owners and staff to ensure everything runs smoothly. If there's a problem, our field supervisors are there to help and remedy the situation.

The automotive industry employs 380,000 Australians

The Australian automotive industry is a \$40 billion economy

VACC is the peak automotive industry body with more than 100 years' experience

All apprentices are directly employed by VACC and placed with carefully selected workshops, so you know you'll be in good hands

Apprenticeships are currently available for:

- Light vehicle
- Heavy vehicle
- Motorcycle
- Panel beater (body repair)
- Spray painter (refinishing)
- Auto electrician
- Parts interpreter
- Engine reconditioner
- Automotive administrator
- Automotive salesperson
- Forklift technician
- Elevating work platform technician
- Marine technician

School-based apprenticeships/traineeships

It's the perfect way to start an automotive career while you're still in school.

Students undertaking a school-based apprenticeship/traineeship will generally work with host employers for one or two days a week, and on other days study for VCE or VCAL.

School-based apprenticeship/traineeships can be undertaken during years 10, 11 & 12 and will contribute to your VCE or VCAL results.

The benefits

- VCAL, VCE and your certificate qualifications gained simultaneously
- Paid employment
- Formal training with a registered training organisation
- A work history to help obtain employment after leaving school
- Greater career options
- On completion of Certificate II, the opportunity to up-skill to a full trade qualification is available with VACC
- VACC Automotive Apprenticeships is recognised as an apprentice employer of choice
- Tools provided

High school certificate VET in schools School-based Apprenticeship/ Traineeship Foundation Skills
