Australia's Largest Automotive
Apprenticeship Employer

Automotive
Apprenticeships

GET WITH THE PROGRAM

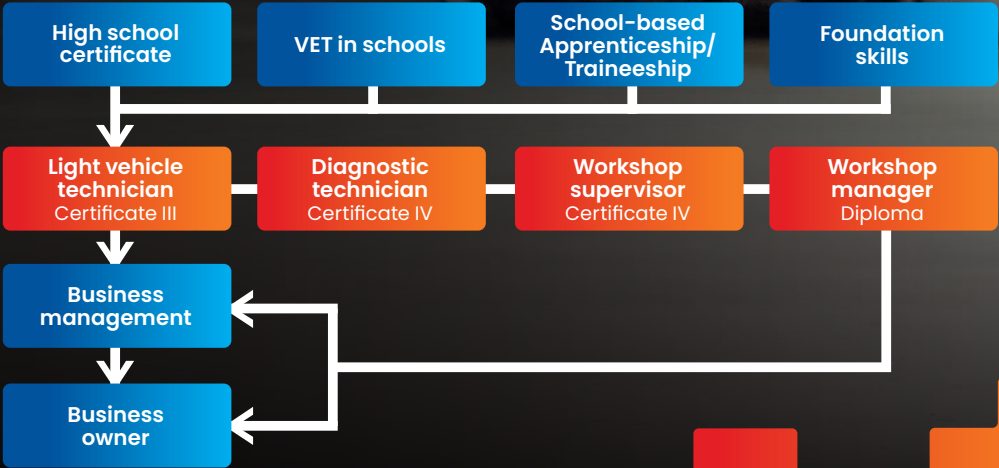

VACC Automotive Apprenticeships seeks bright students ready to meet the tech demands of today's automotive industry.

In return, we provide a smooth pathway into the workforce. We recruit the best candidates, match them to workshops, cover medical exams, run induction programs, introduce you to your host and put you on VACC payroll.

Apprentices attend VACC's award-winning Life Skills Program. We're in it for the long haul - trade-qualified field supervisors regularly visit to provide ongoing mentoring and support, working with business owners to ensure everything runs smoothly. If there's a problem, our supervisors are there to help.

- The automotive industry employs 380,000 Australians
- The Australian automotive industry is a \$40 billion economy
- VACC is the peak automotive industry body with 100+ years' experience
- All apprentices are directly employed by VACC and placed with carefully selected workshops, so you know you'll be in good hands

Career Pathway

SCHOOL-BASED APPRENTICESHIPS/ TRAINEESHIPS

It's the perfect way to start an automotive career while you're still in school.

Students work with host employers one or two days a week, studying VCE or VCAL on other days.

School-based apprenticeships can be done during Years 10, 11 & 12 and contribute to your VCE or VCAL results.

THE BENEFITS

- VCAL, VCE and certificate qualifications gained simultaneously
- Paid employment
- Formal training with registered training organisation
- Work history to help get jobs after school
- Greater career options
- Up-skill opportunity - Certificate II can lead to full trade qualification with VACC
- VACC Automotive Apprenticeships recognised as apprentice employer of choice
- Tools provided
